

RALLY BOARD 65

ALL-in-One Solution

Supports Major Video Platforms

works with
Google Meet

Certified for
Microsoft Teams

Rally Board 65 simplifies video conferencing with an extremely easy-to-deploy, all-in-one collaboration device that combines powerful audio and video with a 65-inch touchscreen display.

Powerful Audio and Video with a 65-inch Touchscreen Display

– Flexibility to Use and Move –

4K Camera with AI

Provides clear focus and helps eliminate distractions by using a depth-mapping sensor to distinguish, delivering a more natural depth effect compared to standard background blur settings.

Everyone is Clearly Seen and Heard

Optimize participant framing and image processing to deliver clear, crisp visuals for more productive person-to-person interactions. Compared to standard background blur settings.

Built for Flexibility

Rally Board 65 on a table or credenza, on a wall, on a cart, have the flexibility to move it anywhere it's needed. It can be deployed with the camera positioned above or below the screen.

41%

Rally Board 65: Designed for Sustainability

The devices feature up to 41%* post-consumer recycled plastic, reducing environmental impact. Precision radar sensors detect occupancy, enabling deep sleep mode when spaces are empty to minimize power consumption.
